

## HDMI TO DVI-D CABLE \* 16'

Provides the best colour detail and resolution for HDTV. HDMI and DVI deliver the best possible digital, high-definition video for a superior viewing experience. HDMI is backward-compatible with DVI, allowing connection of HDMI-capable components and displays such as DTVs, plasma displays, LCD TVs, and projectors to digital source devices, such as DVD players/recorders, digital set-top boxes, and AV receivers. Pure VA HDMI to DVI Cables deliver the highest quality digital, hi-definition video using silver-plated conductors, quad-shielding, and precision-formulated dielectric material.

### Benefits

- Integrated strain relief protects against wire damage for consistently high-quality video
- Non-slip rubber grip and integrated colour-coding provide comfort and ease of install
- 24k Gold-plated connectors create precise contact for low loss
- Ferrite inductor block protects against unwanted interference
- Impedance-matched construction reduces loss and increases bandwidth
- 99.99% Oxygen-free, solid-copper conductors and high-purity, silver solder joints drastically reduce signal distortion for unrivalled video clarity
- Abrasion-resistant, flexible PVC jacket maintains integrity, even when bent
- Five-layer shielding isolates from outside noise and for superior clarity
- Precision-formulated, polyethylene dielectric material maintains stronger signals that yield superior video accuracy
- Precision-formulated, polyethylene dielectric material maintains stronger signals that yield superior video accuracy

### Product Code

AV52400ea16

### Product Name

HDMI TO DVI-D CABLE \* 16'
